

# Congress of the United States

Washington, DC 20515

May 23, 2025

The Honorable Linda E. McMahon  
Secretary of Education  
U.S. Department of Education  
400 Maryland Avenue SW  
Washington, DC 20202

The Honorable Russell Vought  
Director  
Office of Management and Budget  
725 17<sup>th</sup> Street NW  
Washington, DC 20503

Dear Secretary McMahon and Director Vought:

We write to express our deep concern regarding the Department of Education's (Department) delay in issuing Grant Award Notifications (GANs) for fiscal year (FY) 2025 TRIO programs. As of today, GANs have not yet been sent to grantee institutions, creating unnecessary disruption to essential programming and uncertainty for the students and educators who depend on the critical services that these federal funds help to provide.

The TRIO Programs are a cornerstone of our nation's commitment to educational access and upward mobility. TRIO supports individuals from low-income backgrounds, students who would be the first person in their families to earn college degrees, students with disabilities, among others, in accessing and achieving postsecondary success. From personalized tutoring, to personal mentoring and advising, to assistance applying for and identifying funding options, TRIO programs make a real difference in a student's ability to attend and complete college. These programs are evidence-based and results-driven. TRIO graduates, according to the Department of Education's own data, are more likely to enroll in higher education and earn their degrees than non-TRIO students with similar backgrounds<sup>1</sup>. For these reasons, TRIO programs have long enjoyed strong bipartisan support in Congress. They reflect a shared national value—every American, regardless of their zip code, deserves the chance to pursue higher education and the American dream.

The ongoing delay in issuing GANs is already having real-world consequences in our home state of New Hampshire. We are particularly concerned about the damage being caused by the Department's delayed notification to the University of New Hampshire's (UNH) Upward Bound program. UNH's program is slated to begin June 1. They only have enough carry over funding for roughly one month before they would need to lay off staff and shutter a program that has had such a significant positive impact on the lives of so many Granite Staters. Currently, the program serves 118 students across 11 schools, and 100% of them have persisted to the next grade level or on-time graduation, and 88% of graduates have enrolled in college in the fall too. With summer programming rapidly approaching, these delays and uncertainty threaten to undermine planning, staffing, and student participation and long-term educational success.

Accordingly, we respectfully request responses to the following questions no later than May 30, 2025.

1. Will the Department of Education commit to issuing GANs for FY25 TRIO programs ahead of June 1?
2. If not, when will you issue them?
3. What specific factors have caused the Department to miss its usual timelines for delivering GANs to grantees?

---

We urge you to act without further delay to ensure that TRIO programs can operate on schedule and provide the services that New Hampshire's students and those across the country are counting on. We look forward to your prompt response.

Sincerely,
